

Giving stocks and mutual funds

It's an easy and potentially tax-efficient way for you to support causes you care about.

The benefits of giving stocks and mutual funds

Giving long-term appreciated securities to a donor-advised fund at Thrivent has a number of benefits:

Possible tax savings. When you give long-term appreciated securities, you may bypass capital gains taxes on the appreciated value.

Potentially greater tax deduction. You may benefit from a larger immediate charitable deduction.

More support to charities. Your donor-advised fund benefits from a larger initial gift that can support multiple charities.

Long-term appreciated securities, whether they're stocks or mutual funds, may provide a tax deduction for up to 30% of an individual's adjusted gross income in the year that the gift is made. Any unused portion of the deduction exceeding this threshold may be carried forward for an additional five tax years. The result is often an even larger charitable gift than may have been expected.
